

INVITATION

Dear friends,

Join us for Impact Climate Innovation Conference 2024: Accelerating Partnership for a Net Zero Future. Mark your calendars for October 23rd to 25th, 2024, as Impact Climate Innovation Conference comes for its third session.

The Impact Climate Innovation Conference is an international platform for cooperation and exchange in the climate field, dedicated to connecting innovators, decision-makers and actors from different industries and multiple subjects, accelerating the green low-carbon transition and global emission reduction process through innovation and cross-border cooperation, and jointly building a sustainable future.

With the support of the Department of Ecology and Environment of Hainan Province and Department of Commerce of Hainan Province, the conference has been listed as the "Hainan Provincial Exhibition Project" for three consecutive years from 2022 to 2024.

As the most ambitious annual climate action event held by COP29, the Conference will focus on 12 key climate-related topics, including: vehicle-to-grid integration, green supply chains, carbon market, south-south cooperation, circular economy, ESG, resilient cities, blue economy, climate finance and investment, Zero-carbon Industrial Par, biodiversity, regenerative agriculture.

The Conference plans to attract over 200 government officials, experts, entrepreneurs and over 800 professional delegates to bring climate targets, implementation plans, and investment commitments, showcasing innovative and cutting-edge clean energy, decarbonization and climate change technologies and solutions from China and around the world. Together, we can stimulate more climate action, accelerate the green low-carbon transition and global emission reduction process, echoing the theme of the conference with concrete actions.

Your participation and support will facilitate the opening of an innovative chapter in climate action and a sustainable future, and we look forward to your arrival!
